

StudentDV

2007-2008 – Show 37

This month on Student DV...

Andrew Carnegie Middle School teaches us about the power of words, and Will Rogers Middle School presents a documentary on global warming.

Nick G. The Science Geek – Balloon Mania (27:03)

Some balloons fly up, up, and away; some lay on the ground; and others just pop. On this episode of StudentDV, Nick G. The Science Geek uses an ordinary balloon to show you how salt and pepper can fly. Ah-ah-ah-choo!
